Zephyrhills, Fl. 33542

Re: Complaint #205243116

Dear Mr. Wells:

In response to your formal complaint concerning safety and/or health hazards at:

Wal-Mart Distribution Center #6020
5100 Kettering Road
Brooksville, Fl. 34602

The Occupational Safety and Health Administration conducted an inspection there. That inspection was completed on July 11, 2005..

The results of our investigation of your complaint item was as follows:

Complaint item 1: Employee was injured while unjamming a conveyor belt because lockout/tagout" procedures were not being used to isolate the machine for unexpected release of hazardous energy.

Findings: A follow up inspection was conducted in response to your letter addressing the first inspection. As a result of the follow up inspection, several violations of OSHA standards were found in the employer's lockout/tagout program. See Citation No. 1, Items No. 1a, 1b, 2a and 2b.

Attached for your information is a copy of the OSHA-2, Citation and Notification of Penalty, which was sent to your employer on 07/28/2005 and should have been posted at the workplace for at least three days after receipt.

If you do not agree with our inspection results, you may contact me for a clarification of the matter. You also have the right to an informal review by the OSHA Regional Administrator who may be contacted at the following location:

Regional Administrator
Occupational Safety and Health Administration
U. S. Department of Labor
Atlanta Federal Center
61 Forsyth St., SW, RM. 6T50
Atlanta, GA 30303
